# Brad Scott

## Messianic Author, Musician and International Speaker

Brad Scott is an accomplished author and international speaker, whose focus is to restore the ways of our Creator to His people, by teaching the Old and New Testaments from the language and culture of early believers who wrote the Gospels.

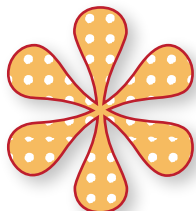

The New Testament is crammed full of idioms, phrases and concepts, the observant Jew living in the time of Yeshua/Jesus' ministry would have known, but largely unfamiliar to modern readers. *"The Scriptures must be read through the eyes and minds of the culture in which it was written to appreciate the fullness and richness of the New Testament writers," Brad says.*

You can also check out Brad Scott's teachings on YouTube.
